Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restriction Request

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-3, drawn to carboxylic acid derivatives or pharmaceutical acceptable salts thereof, and simple pharmaceutical composition comprising the same, classified in class 562 and multiple subclasses. This group may be subjected to further restriction. **A single disclosed species within the above group is requested for search purposes**.

II. Claims 4-22, drawn methods of treating multiple medical conditions or disorders as defined in the said claims a classified in class 514 and multiple subclasses. This group may be subjected to further restriction.

The inventions are distinct, each from the other because of the following reasons: Inventions II and I are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, it is clear that there are many alternative methods in the art, comprising pharmaceutical compositions to treat medical conditions or disorders like those described in the instant claims that do not require at all any derivatives disclosed in the instant invention.

Because these inventions are distinct for the reasons given above and the search required for any of the groups is not required the others groups, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

In the event that Applicant elect Group I, drawn to compounds, the Examiner will agree to rejoin a single and particular method of treating a particular disease, provided that the said compounds are found allowable and there is no 112 issues pending.

CONCLUSION

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hector M Reyes whose telephone number is (571) 272-0961. The examiner can normally be reached on M-F (9:00 AM-5:30 PM).
